About Me

Software Engineering student focused on building clean, functional desktop and mobile applications. Experienced in software architecture, secure database integration, and object-oriented programming. Strong problem-solver and rapid learner eager to contribute to production codebases and sharpen engineering practices as a Software Engineer Intern.

Skills

Technical Skills

- Programming Languages: C#, Java, Python, C++
- Database Management
- Problem Solving
- Critical Thinking

Professional & Leadership Skills

- Leadership
- Project Management
- Communication

Education Experience

- BSc (Hons) Computer Science with Software Engineering** 2025 - 2028
National Institute of Business Management University
Currently pursuing a full academic degree pathway, having successfully completed the Foundation and Advanced Diploma modules. Actively completing the Higher National Diploma (HND) in IT phase, focusing on core software architecture, mobile application development, and database integration.
- G.C.E. Ordinary Level (O/L)** 2013 - 2024
Wesley College
Successfully completed secondary education with a strong academic performance, achieving 6 As, 1 B, and 2 Cs.
- Oracle Tech Event Certification**
National Institute of Business Management (NIBM) Awarded for completing technical training and demonstrating proficiency in enterprise database concepts and architecture....
- MindCode Programming Competition Certificate**
National Institute of Business Management (NIBM) Awarded for completing technical training and demonstrating proficiency in enterprise database concepts and architecture.....

Projects

- MacFind - AI-Powered Mechanic Finder Mobile Application**
Technologies Used : Mobile App Development, Artificial Intelligence Integration, java, fire base, HND Final Project (New innovation)
- Ramadia Hotel Management System**
Technologies Used : Software Architecture, Object-Oriented Programming (OOP), c#, sql server Management, Diploma Final Project (implemented the current system with advance features)
- Life Line Care - Hospital Management System**
Technologies Used : Software Architecture, java, php myadmin
- FreshHut - Online Food Ordering System**
Technologies Used : MicroService Architecture, java, php myadmin
- Busspass - IOT Based System**
Implemented a solution for a real world problem related bus crowd technologies used - RFID , GPS , Internet , Website
- BurgerShot - Online burger ordering system**
A c# project , Final Foundation Project
